

Dear AAPPS-DPP members

I would like to report current status of Reviews of Modern Plasma Physics

(<https://link.springer.com/journal/41614/1/1/page/1>).

After Prof. P. Kaw and Prof. GK Park publications dated June 16 and Dr. H. Tanaka / Prof. Hori on July 6, we have papers by Prof. Peter Yoon on July 21 and Prof. Don Melrose (2016 S. Chandrasekhar Prize of Plasma Physics laureate) July 25 as follows,

[4] Peter H. Yoon, “Kinetic Instabilities in the solar wind driven by temperature anisotropies”, Rev. Mod. Plasma Phys. (2017) 1:4 , DOI 10.1007/s41614-017-0006-1

[5] Donald B. Melrose, “Coherent emission mechanisms in astrophysical plasmas”, Rev. Mod. Plasma Phys. (2017) 1:5 , DOI 10.1007/s41614-017-0007-0

For initial two years, these papers are free access but after two years, **only AAPPS-DPP member has free access using some PW.**

AAPPS-DPP secretary Prof. Imadera is preparing the information and will send to all of you.

Sincerely yours,

M. Kikuchi, chairman of RMPP Editorial Board
