

August 19, 2024

Dear AAPPS-DPP members,

NIFS (DG Z. Yoshida) helped us on AAPPS-DPP2023 excellently (LOC chair: K. Nagaoka).

This year, NIFS is hosting ITER International School (IIS2024) from 9 to 13 Dec. 2024.

This is quite important schooling activity.

Below is announcement by Prof. Ichiguchi (Chair of host country Committee).

Please join this school. Deadline (Sep. 1) is coming close.

Sincerely yours,

M. Kikuchi (CEO) and A. Sen (DPP Chair)

\*\*\*\*\*

We will hold 13th ITER International School (IIS2024) from 9 to 13 Dec. 2024,

at NAGOYA PRIME CENTRAL TOWER, Nagoya, Japan,

hosted by National Institute for Fusion Science.

<https://iis2024.org/>

Your application is really welcome.

Although the agenda focuses on topics related to Magnetic fusion diagnostics and data science, attendees are not required to be working in this field.

Poster sessions are scheduled for attendees to publicize their own research.

Active participation in the poster sessions is strongly encouraged.

A tour of National Institute for Fusion Science is also scheduled during the school.

Lodging and lunch will be provided for every attendee during the school, if needed.

Due to the limited capacity of the IIS2024, all attendees are asked to pre-register.

[DEADLINE OF PRE-REGISTRATION: SEPTEMBER 1st.]

The details of the pre-registration are available in the web page,

<https://iis2024.org/information-for-participants/>

You are required to submit Motivation-letter and CV,

and the abstract if you apply to the poster session in the pre-registration.

The templates are provided in the pre-registration page.

Since the application server is expected to be crowded just before the deadline,

we recommend you prepare for the application as early as possible.

If you have any questions, do not hesitate to ask us.

We look forward to your applying to the pre-registration of IIS2024.

Best Regards,

Katsuji ICHIGUCHI, Chair of Host Country Committee, IIS2024
