

March 9, 2025

Dear AAPPS-DPP members,

DPP chair Prof. Rawat informed AEPSE2025 as below.

Sincerely yours,

M. Kikuchi, CEO

\*\*\*\*\*

Dear Prof Kikuchi

May I request you to please forward the information about call for abstract for AEPSE2025 to AAPPS-DPP members.

Best regards

Rajdeep

Subject: [AEPSE2025] Request to distribute AEPSE2025 Call for Abstracts

Dear Prof. Rajdeep Singh RAWAT,

We would appreciate for your contribution for organization of AEPSE2025

We are starting to announce for AEPSE2025 with " Call for Abstracts" and opening of web site.

Please distribute the below letter of "Call for Abstracts" with attached file of letter to members of societies related to this conference in your country.

Your kind support is highly appreciated in advance.

Jeon Geon Han

General Managing Director of AEPSE 2025

AEPSE 2025

14th Asian-European International Conference on Plasma Surface Engineering  
November 3-6, 2025 / Courtyard by Marriot Phuket Town, Phuket, Thailand

Call for Abstracts

The 14th Asian-European International Conference on Plasma Surface Engineering will be held at Courtyard by Marriot Phuket Town in Phuket City, Thailand from November 3<sup>rd</sup> (Monday) to 6<sup>th</sup> (Thursday), 2025.

AEPSE 2025 is jointly organized by the Asian Joint Committee for Applied Plasma Science and Engineering (AJC-APSE), The Korean Society of Surface Science and Engineering (KSSSE), and Science and Technology Park, Chiang Mai University (STeP), Thailand in collaboration with the European Joint Committee on Plasma and Ion Surface Engineering (EJC/PISE).

Since the first AEPSE conference held in Seoul, Korea in 1997, the AEPSE conference has gained increasing interest as a globally recognized open forum for scientists and engineers in Asia, Europe, and other countries in the field of applied plasma science and engineering. The major topics in AEPSE 2025 will cover a variety of technological advances in plasma fundamentals, coatings and thin films, energy and environment, bio, medicine and agriculture, and materials and functional surface treatment, electroplating, plasma DX and AI etc. In addition, AEPSE2025 will be proceeding in parallel with International Conference on Surface Engineering (ICSE2025) and Interfinish Regional Symposium which are focused on variety of electrochemical surface technology.

We cordially invite and ask you to submit the abstract for AEPSE2025.

Authors are required to submit the abstract via online abstract submission system. The deadline for the abstract submission is June 30 (Monday), 2025. Please see the detail

information for the abstract submission at the AEPSE 2025 website.

<https://www.aepse.org/2025/abstracts01.html>

If you have any questions or assistance, do not hesitate to contact the AEPSE 2025 secretariat.

Jeon Geon Han
