

March 28, 2025

Dear AAPPS-DPP members,

Prof. Zheng-Mao Sheng informed us The 15th International West Lake Symposium as below. Please have a look and join if you are interested.

Sincerely yours,
M. Kikuchi, CEO

Dear Prof. Kikuchi,

The 15th International West Lake Symposium - Frontiers in Laser Plasma Physics (IWLS-2025) will be held in Hangzhou, China, June 6 - 9, 2025. IWLS-2025 will be hosted by the Institute for Fusion Theory and Simulation (IFTS), Zhejiang University (ZJU).

The IWLS Symposium series was launched in 2006 when IFTS was established in Zhejiang University. It covers a broad scope on plasma sciences; including laser fusion physics, magnetic fusion physics, space plasma physics, laser plasma physics and high-energy-density physics. IWLS-2025 will cover the following topics: inertial confinement fusion, laser plasma interaction, laser particle accelerator, novel radiation sources, strong-field QED, and other laser-plasma related studies. In addition, there will be a Special Memorial Session in honor of the late Professor Kunioki Mima; a close colleague and friend of IFTS. Scientists and graduate students from around the world are welcome to present theory, simulation and experimental results related to these topics.

Could you help us transfer the first announcement of IWLS-2025 to AAPPS-DPP members?

Thank you very much for your help!
Welcome you to visit IFTS again in the near future!

Sincerely yours,
Zheng-Mao Sheng
